Anthony Metzler

Engineering & Product Manager

Work Experience Continued

Engineering Manager

ClearCare

September 2016 - February 2017

- Lead a team of 6-10 engineers, gathered product requirements, designed new features, and managed the software development life-cycle.
- Coordinated the production of mobile apps utilizing React and React Native - this supported the on-boarding of key clients resulting in new MRR.
- Oversaw the build-out of a new GraphQL API service integrated with the legacy, monolithic application.
- Co-managed the development of a continuous integration pipeline that decreased pre-deployment time

QA Manager

ClearCare

March 2013 - August 2016

- Directly managed a team of 3-5 QA engineers responsible for writing automated tests, architecting test frameworks, and documenting software quality standards.
- Acted as release manager responsible for near-daily production deployments.
- Directed the design and completion of an automated test framework that decreased manual testing time by 75%.
- Oversaw the launch of partner integrations, including Harvard Medical, Stanford, enterprise customers,

Founder

Creative Solutions

July 2009 - March 2013

- Lead a team of business development managers, designers, and engineers in developing a cloud-based mobile ordering and POS platform.
- Spearheaded product development of the web platform from conception to launch.
- Acted as project manager overseeing the integration of partner APIs providing payment and SMS functionality.
